Renewable Energy Tours
Wednesday, June 29th, 9:00am-3:00pm
Instructor: Tracie Cain

We will highlight briefly some energy kit activities that have not been used much in the past. We will then travel by bus to Alberici Construction for a tour of their LEED certified green building. After that, we will continue on to the landfill in Earth City for a tour of the landfill and how methane gas is collected and used by a nearby high school.

Complimentary breakfast and lunch!

**Participation is limited** to 24 attendees per day so register NOW at:
parc.wustl.edu/outreach/educators/HotTopics

**Support for this program is provided by:**

**Washington University in St. Louis**
Institute for School Partnership

schoolpartnership.wustl.edu
(314) 935-6846
